

**ACUITY ENERGY**  
ENTRUSTING THE NEXT

**COMPANY PROFILE**

## BACKGROUND

Ramaite Investments (Pty) Ltd t/a Acuity Energy is a diversified broad-based black economic empowerment South African company, with presence across the Power and Wholesale Distribution of Petroleum Products sector.

### Products & Services

We offer a wide range of services and products in construction and distribution of petroleum.

### Construction of Overhead Powerlines

Through longstanding industry relationships with our engineering affiliates, we provide services in the overhead power line sectors and related sectors.

### Petroleum Products

Acuity Energy is a registered and fully licensed Wholesale Petroleum Service Provider with the Department of Energy.

### About Us Acuity Energy

Ramaite Investments (Pty) Ltd t/a Acuity Energy is a diversified broad-based black economic empowerment South African company, which has presence across the Power and Wholesale Distribution of Petroleum Products sector.

The company has Import/Export licences and permits that ease trading with its global partners. We are a proudly South African company and support government initiatives and drives that empower the manufacturing of local products, goods and services. We strive to find a niche for export of locally made products to our neighbouring countries like Lesotho, Botswana, Eswatini, Mozambique and Zambia.

# OWNERSHIP & MANAGEMENT

Acuity Energy is a 100% Black-Owned and successfully managed Company, with a B-BBEE Level 1 contributing status.

## MISSION

To accomplish excellence in the field of Engineering, Procurement and Construction through world class practices and standards in Quality, Safety and Environmental protection using state of the art tools and techniques of project management.

## VISION

Acuity Energy will set precedence for commitment, trust and on-time delivery in the Power, Oil and Gas and the Petroleum sectors while we add value and inspire our customers

## VALUES

- Customer Experience
- Quality
- Integrity
- Transparency
- Personal Accountability
- Professionalism

## PRODUCTS AND SERVICES

We offer a range of services and products In construction and distribution of Petroleum.

### Construction of Overhead Powerlines

As a broad-based black economic empowerment company, our expertise covers all aspects of the design and construction of low, medium and high voltage overhead transmission and distribution lines of voltages of between 33kV – 400kV. Through our longstanding industry relationships with our engineering affiliates, we provide services in the overhead power line sectors and related services. We have a track record of over ten (10) years to date through our previous ownership of Ramagale Holdings (Pty) Ltd

# PETROLEUM PRODUCTS

AAcuity Energy is a registered and fully licensed Wholesale Petroleum Service Provider with the Department of Energy. The company offers an integrated chain of supply from storage and handling right through to transportation. Through our strategic partnership with Oilsultants, we offer the following services: Oil and fuel management Supply and logistics and collection of used oil.

We supply bulk fuel (diesel & petrol), oil and lubricants to our customers. We deliver from as little as the split loads with a minimum of 5,000 litres to 46,000 litres at a time. Our objective is to deliver products within 24 hours of receipt of the purchase order. Our strategic partnerships give us leverage in terms of security of supply and reliable deliveries. We offer an on-site fuel solution for construction companies by using self-bunded tanks with a minimum on- site storage of 4,500 litres to a maximum of 30,000 litres.

## Safety, Health, Environmental and Quality Policy (SHEQ)

The Company's policies and procedures are focused on Safety of its core resources (our employees), the protection of the environment and to provide an organizational culture of Health and Safety, Environmental and Quality Awareness through our governance processes and constant innovation, excellency and continuous improvements to our business system.

We continue to strive to achieve our customer satisfaction. We consider our employees as our key partners, and we pride ourselves by comprising of a steel strong workforce that is well trained, experienced and qualified in the Power and Energy industries
